PROFESSIONAL EXPERIENCE

Eresolution Consultancy Services

Remote

Systems & Backend Integration Engineer

Apr 2025 - Present

- Architected distributed Hono API gateways on Cloudflare Workers for Experian credit OTP proxies and Meta CAPI server-side dispatching, maintaining 99.99% uptime and sub-100ms p99 execution latency.
- Remediated production exception bottlenecks across 90-day intervals via Sentry, GSC, and Microsoft Clarity telemetry, eliminating race conditions and increasing checkout conversion by 14%.
- Authored automated Playwright E2E regression suites with CI build triggers across Vercel and Cloudflare, reducing deployment cycle times by 35% while enforcing strict npm lockfile supply-chain integrity.

Taffin.Tech

Remote, Srinagar

Full Stack Developer (Fixed-Term European Contract)

Apr 2024 - Aug 2025

- Architected full-stack AI candidate-matching pipelines and job board platform for a French recruitment startup, driving a 25% lift in user engagement while enforcing EU GDPR privacy compliance.
- Engineered responsive client interfaces with Tailwind CSS, React, and Twig integrated into a Symfony backend, slashing initial page load times by 40% across mobile devices.
- Automated programmatic SEO (pSEO) indexing pipelines and JobPosting JSON-LD schemas in Symfony, lifting organic search discovery by 30%.

SquadCoders

Kashmir, India

Co-Founder & Principal Consultant (Independent Studio / Contract)

Dec 2023 - Present

- Engineered static-first web architectures with Astro, TypeScript, and Cloudflare Pages, establishing sub-50ms global TTFB and zero Cumulative Layout Shift (0.00 CLS) across client systems.
- Refactored production platforms including SoulMedia, Hotel Akbar, and TravelKit, reducing bundle payloads by 65% and attaining 100/100 Lighthouse performance benchmarks through zero-JS baselines.
- Delivered 10+ high-performance commercial websites with localized edge caching, technical SEO, and GA4 telemetry, achieving an average page-load improvement of 30% and a 15% conversion lift.
- Automated custom build-time verification hooks in Node.js, eliminating broken links and asset discrepancies prior to static deployment.

Elance Technologies

Srinagar, Kashmir

Full Stack Industrial Trainee

Jan 2023 - Jun 2023

- Mastered full-stack web engineering fundamentals across a 6-month intensive curriculum in PHP, JavaScript, MySQL/MariaDB, and responsive HTML5/CSS3.

- Re-engineered accessible grid layouts and touch-first interactions across client platforms, driving a 40% increase in mobile user engagement.

TECHNICAL PROJECTS

School Management Application / *Next.js 16 (Hostinger Standalone), Shadcn UI, TanStack Ecosystem, Drizzle ORM, MySQL, Better Auth* (kwschool.in) 2026

- Architected enterprise school management system on Next.js 16 (Hostinger standalone build) with Drizzle ORM and MySQL, managing 500+ student records, fee reconciliation, and automated Telegram/email alerts.
- Implemented high-performance interfaces using Shadcn UI and TanStack (Query, Router, Table, Form with Zod), backed by Better Auth RBAC tiers, Cloudflare CDN/WAF, and Cloudflare R2.

Multi-Tenant Ad-Driven Platform / *Next.js, React, Vercel, Git Branch Workflows, Meta CAPI, Meta Pixel, Razorpay, SHA-256* (www.expertsupport.org) 2025

- Architected multi-tenant ad-driven platform with automated branch-based Vercel deployments, isolated tenant branding, and end-to-end Razorpay subscription billing.
- Implemented privacy-first ad tracking via Meta Pixel and hashed server-side Conversions API (CAPI), securing PII across URL query parameters and telemetry payloads.

Responsive Job Portal / *Symfony, PHP, React, Redux, DaisyUI, TanStack Table, Schema.org (JSON-LD), i18n, TypeScript* (www.taffin.tech) 2024

- Built high-performance, multilingual job portal using React, Redux, and DaisyUI; integrated TanStack Table with lazy loading and shimmer loaders to smoothly handle 10,000+ job listings.
- Boosted discoverability and organic search rankings by engineering structured Schema.org markup (JobPosting) for Google Rich Results alongside full SEO metadata optimization.

HackerForce Storefront / *Astro, TypeScript, Tailwind CSS, Pagefind WASM* (hackerforce.io) 2026

- Architected zero-server static cybersecurity platform with Astro and Tailwind CSS, achieving sub-300ms LCP and zero client-side JavaScript overhead.
- Engineered in-browser full-text search via WebAssembly with Pagefind, indexing hundreds of MDX curricula files with sub-15ms client query execution.
